

Rohit Prajapati

QA Automation Engineer — 3+ Years Experience

+91 7409486041 | rohitprajapati2632@gmail.com | Noida, Sector 66, UP - 201301 | [linkedin.com/in/rohit-prajapati-b10b94267](https://www.linkedin.com/in/rohit-prajapati-b10b94267)

Profile Summary

Results-driven Software Test Engineer with 3+ years of experience in Manual and Automation Testing of web and mobile applications. Proficient in Java, Selenium WebDriver, Appium, TestNG, Maven, and Jenkins for designing, developing, and maintaining scalable automation frameworks. Strong understanding of SDLC, STLC, and Agile (Scrum) methodologies, with hands-on experience in Functional, Regression, Smoke, Sanity, API, and Mobile Application Testing.

Skilled in XPath creation, test case design, defect tracking, test script optimization, and API testing using Postman and REST Assured to improve test coverage and execution efficiency. Hands-on experience in Appium for Android and iOS automation, validating mobile functionality, UI behavior, and cross-device compatibility. Experienced in using BrowserStack for cross-browser, cross-platform, and real-device testing, ensuring seamless application performance across different browsers, browser versions, operating systems, and mobile devices.

Skills

- **Technical Skills:** Blackbox Testing, Smoke Testing, Sanity Testing, Re-Testing, Functional Testing, Regression Testing, Web Based Application Testing, API Testing, Unit Testing, Manual Testing, Parallel Testing, AI Testing
- **Programming Languages:** Core Java
- **Testing Frameworks:** Selenium, TestNG, Maven, Data Driven, Appium
- **Platforms & Tools:** Android Studio, Appium Inspector, BrowserStack (Cross-Browser Testing, Cross-Platform Testing, Real Device Cloud), Real Devices, Emulators, Simulators
- **API Testing Frameworks:** Rest Assured, Postman
- **Database:** SQL, MySQL
- **CI/CD Tools:** Jenkins
- **IDE:** Eclipse, Microsoft Visual Studio Code
- **Bug Reporting Tools:** Jira
- **Version Control:** Git, GitHub
- **Project Methodologies:** Agile, Scrum, SDLC, STLC
- **Performance Tools:** JMeter

Professional Experience

Software Test Engineer Sun System Infotech Pvt Ltd	02/2023 – Present Noida, UP
• Software Test Engineer with 3+ years of experience in Manual Testing and Automation Testing of Web and Client-Server applications. • Strong expertise in Selenium WebDriver with Java, TestNG, Maven, and Jenkins for building and maintaining automation frameworks. • Hands-on experience in API Test Automation using Rest Assured (Java) and Postman, including building automated API test suites and SQL for database validation. • Solid understanding of Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC) in Agile (Scrum) and Waterfall methodologies. • Proficient in designing and executing Test Plans, Test Cases, Test Scripts, and Test Scenarios for both manual and automated testing.	

- Experienced in Defect Tracking and Bug Reporting using tools like JIRA, ensuring timely resolution and quality delivery.
- Excellent analytical, problem-solving, and communication skills with the ability to collaborate effectively in cross-functional teams.

Project: E-Retail **Manual and Automation Testing**
Tech Stack: Selenium, Java, BrowserStack, Appium, Eclipse, TestNG, POM, Maven, Jenkins, Postman, Jira

Worked on testing a large-scale E-Retail (E-commerce) web application supporting end-to-end user journeys, including product discovery, cart management, and secure online transactions. The platform comprises key modules such as user authentication, product catalog, search & filtering, shopping cart, checkout, payment processing, and order management, along with an integrated inventory management system connected with warehouse operations to track orders and maintain saleable inventory, ensuring accurate handling of order lifecycle statuses such as packed, shipped, and delivered.

- Implemented Automation Testing using Selenium, Appium, TestNG Framework, and Page Object Model for scalable and maintainable web and mobile test coverage.
- Performed Cross-Browser Testing using BrowserStack by executing automated and manual test suites across Chrome, Firefox, Edge, Safari, and multiple browser versions to ensure consistent application behavior.
- Designed and executed test cases for Web Application modules covering end-to-end functional workflows.
- Executed manual and automated test procedures and generated detailed test reports for stakeholders.
- Analyzed testing results and submitted comprehensive defect reports to the development team.
- Created and managed bug reports using JIRA, ensuring timely resolution and transparent communication.

Project: EPRS Application **Manual and Automation Testing**
Tech Stack: Selenium with Java, Eclipse, TestNG, Page Object Model, Maven, Jenkins, Postman, Jira

Worked on testing an enterprise-level EPRS application designed to streamline procurement and requisition workflows across departments. The system enables users to raise purchase requests, manage approvals, track procurement cycles, and handle vendor interactions. The platform includes modules such as user roles & access control, requisition creation, approval workflows, vendor management, purchase order processing, and reporting dashboards, integrated with backend systems to ensure accurate tracking of procurement status and transactions.

- Performed Automation Testing using TestNG Framework and Page Object Model ensuring reliable regression coverage.
- Designed, executed, and maintained test cases and bug reports, contributing to on-time delivery of challenging modules.
- Executed manual test procedures, generated test reports, and ensured testing standards were consistently followed.
- Designed and executed test cases for all Web Application modules throughout the project lifecycle.

Education

B.Tech – Civil Engineering

Veer Madho Singh Bhandari Uttarakhand Technical University

Higher Secondary (12th)

Uttarakhand Board of School Education

Secondary (10th)

Uttarakhand Board of School Education

Achievements & Awards

- Received Customer Appreciation Award for excellent work in Test and Integration activities.
- Received Team Award twice for on-time delivery of challenging modules.
